

Data structure in an INF file for the DSO to provide information on the approved restrictions plan

Pursuant to the Stockpiling Act and Part II of the TNC, the DSO provides the TSO, at the same time as the natural gas off-take Restrictions Plan approved by the President of the ERU, with information concerning customers covered by the plan, in hard copy and electronically in the format specified below.

1. **File name:**

INF_csnd_crcp_yyyy_vv_n

where:

INF – fixed part of the file name conveying information on the file content

csnd – code of the Distribution System Operator (DSO)

crp – code of the Transmission System Operator (TSO)

yyyy – year of approval of the restrictions plan

vv – number of the restrictions plan approved in a particular year

n – file version number (from 1 to 9, and then subsequent letters of the alphabet without diacritical signs)

Example

INF_ABCD_GSPL_2013_01_1.txt

The name of the file shows that the file contains detailed information (such as the address, REGON no. etc.) on the customers from the first restrictions plan of the DSO with the code ABCD, approved in 2013; it is the first version of the file. The sender of the information is the DSO with the code ABCD, and the recipient is GAZ-SYSTEM S.A.

2. **File content**

Details in an ASCII text file in which particular lines pertain to particular customers from the restrictions plan; subsequent fields in each line are separated with semicolons (;).

plan_code;gas_type;point_code;item_no;name1;address1;post1;post_code1;regon;name2;activity_type;con_cap;ID_supply_point_1,ID_supply_point_2,...;

where:

plan_code – ID of the restrictions plan consisting of 3 elements:

DSO's code, the year of approval of the restrictions plan, two-digit number of the restrictions plan approved in a particular year, e.g. ABCD201301 – which denotes the first restrictions plan

of the Distribution System Operator with the code ABCD approved by the Energy Regulatory Office in 2013;

gas_type – type of gas off-taken by the customer at a particular point

gas type codes: E, Ls, Lw

point_code – code of the gas off-take point consisting of 2 elements – DSO's code and four-digit number assigned by the DSO

item_no – number of the item in the restrictions plan (numeric format)

name1 – name of the customer, text format

address1 – address of the customer's premises, text format

post1 – post office for the customer's premises, text format

post_code1 – postal code of the customer's premises

regon – nine-digit identification number REGON – numeric format name2 – address of the

customer's off-take point – text format activity_type – text format

activity type codes:

cc – Chemicals Ceramics

cf – Chemicals Fuels

cs – Chemicals Synthesis

ec – CHP

nfmw – Non-ferrous Metal Works

swks – Steelworks

gwks – Glassworks

lsch – Commodity Chemicals

spp – Sulphur Processing Plant

oc – Other industrial customers

con_cap – contracted capacity expressed in kWh/h, numeric format

ID_supp_point_1, ID_supp_point_2,.. – ID of exit points from the TSO's transmission system from which a particular customer is or may be supplied with gas – numeric format; if there is more than one supply point, subsequent ID's are separated with commas

Example

ABCD201301;E;ABCD1111;1;Company "A" Sp. z o.o.;Mickiewicza 21;Tarnów;33-100;123123123;Mickiewicza 21 Tarnów;swks;1000;430455,430432;

...

Details in the example above are fictitious.

The above line pertains to the customer of the DSO with the code ABCD from the first restrictions plan approved in 2013 and denotes information on a gas customer from group E included as the first item in the approved restrictions plan.

The code of the gas off-take point is ABCD1111.

It is a customer named Company "A" Sp. z o.o.

The address of the seat is: ul. Mickiewicza 21, 33-100 Tarnów.

The customer's REGON no. is 123123123.

The gas off-take point is located at ul. Mickiewicza 21 in Tarnów.

The type of the customer's business is swks, which means
Steelworks.

The contracted capacity at the off-take point of Company "A" Sp. z o.o. is 1000 kWh/h.

The gas off-take point of customer Company "A" Sp. z o.o. may be supplied with gas from two
exit points from the transmission system with ID numbers: 430455 and
430432.

The number of lines in the file will be the same as the number of customers in the approved
restrictions plan.

The capitalisation of letters in the DSO's and TSO's codes is not relevant.
