

## **Data structure in an SD file for the DSO to provide information on total daily quantities of gas used in the preceding month by customers covered by the restrictions plan.**

Pursuant to the Stockpiling Act and Part II of the TNC, the DSO's provide the TSO with total daily quantities of gas used in the preceding month by customers covered by the restrictions plans prepared by the DSO, broken down into the types of gas, by the 10th day of each month, electronically in the format specified below.

### **1. File name:**

SD\_csnd\_crcp\_yyyy\_mm\_v

where:

csnd – code of the Distribution System Operator providing the information

crp – code of the Transmission System Operator (GSPL – GAZ-SYSTEM S.A.)

yyyy – year to which the information provided pertains

mm – month to which the information provided pertains

v – file version number (from 1 to 9, and then subsequent letters of the alphabet without diacritical signs)

### **2. File content**

Details in an ASCII text file in which particular lines pertain to subsequent days of the month for which total daily quantities of gas are provided, for each type of gas. Subsequent fields in the line are separated with semicolons (;)

plan\_code;gas\_type;yyyy;mm;dd;quantity;

where:

plan\_code – ID of the restrictions plan consisting of 3 elements:

DSO's code, year, two-digit number of restrictions plan in the year, e.g.

ABCD201301 – which denotes the first restrictions plan in 2013 of the DSO with the code ABCD;

gas\_type – type of gas off-taken by the customer at a particular point gas type codes:

E, Ls, Lw

yyyy – year

mm – month

dd – day

quantity – total daily quantity of gas in kWh used in the preceding month by customers off-taking a particular type of gas covered by the DSO's restrictions plan.
