

Balancing

On 16 April 2014 Commission Regulation (EU) No 312/2014 of 26 March 2014 establishing a Network Code on Gas Balancing of Transmission Networks entered into force. The Regulation establishes a Network Code setting out gas balancing rules, including network-related rules on nomination procedures, imbalance charges, settlement processes associated with the daily imbalance charge and operational balancing between transmission system operators' networks.

Transmission System Operators within European Union, including Gas Transmission Operator GAZ-SYSTEM S.A., are obliged to apply rules that complies with the norms set out in the Regulation from 1 October 2015.

As of 1 October 2015 gas balancing rules and trade imbalance settlements are consistent with the guidelines set out in the Regulation. Hereinafter one can find relevant information with regard to GAZ-SYSTEM's balancing actions.
