APPLICATIONS FOR DEFINITION OF THE TERMS OF CONNECTION TO TRANSIT GAS PIPELINE SYSTEM (TGPS)

Application for definition of the terms of connection to transit gas pipeline system (TGPS) owned by EuRoPol GAZ s.a. ([DOC](#), [PDF](#))

APPLICATION FOR PROVISION OF THE TRANSMISSION SERVICE -TGPS

Download form of application for capacity/ability allocation ([PP/PZ](#))

Applications for provision of the transmission service and for capacity/ability allocation should be submitted via the IES

INFORMATION EXCHANGE SYSTEM

Following the entry into force of the approved Transmission Network Code of Polish Section of the Jamal Pipeline (TNC TGPS) on 1st March 2016, starting from the 1st June 2016, GAZ-SYSTEM S.A. is launching a new service enabling system users to submit the applications for transmission contract electronically via Information Exchange System (IES).

Under the new provisions of the TNC TGPS, as from 1st June 2016, the applications for transmission contract are submitted via the IES after registering in the IES.

As a result of the aforementioned changes, the entity applying for the execution of a transmission contract shall submit together with the application for transmission contract, the scans or copies thereof authenticated by individuals authorized to represent the entity (or a legal counsel or attorney), of the set of powers of attorney for the persons authorized to represent the entity in the procedure of concluding capacity allocation (PP) or ability allocation (PZ) via the IES. The above mentioned powers of attorney are necessary for conclusion of the capacity allocation (PP) or transmission ability allocation (PZ). Models of the powers of attorney to register or to act in the IES are available below.
