

Transmission Network Code

The new TNC (v.25) approved

According to the provisions of the Energy Law act, the Gas Transmission Operator GAZ-SYSTEM S.A. has prepared a draft of the updated Transmission Network Code (TNC). Upon receiving comments and remarks from system users, detailed analysis and following negotiations with the Energy Regulatory Office the Gas Transmission Operator GAZ-SYSTEM S.A. has presented the new TNC draft to the President of Energy Regulatory Office in order to approve.

On 3rd of February 2016, the President of ERO issued Decision DRR-4322-2(18)/2015/2016/AN/MP, by virtue of which he approved the Transmission Network Code and determined the date on which TNC comes into force as of **1st of March 2016 from 6.00 a.m.**
