Poster about the investment

Tworóg - Tworze gas pipeline

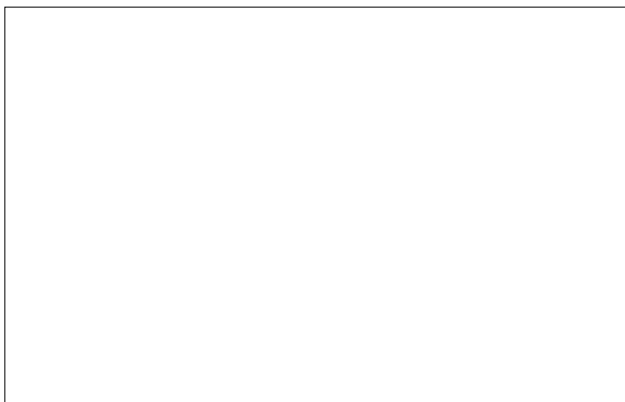

Description of the investment Project

The aim of the project is the construction of the Tworóg-Tworze gas pipeline, 55,2 km long, with a diameter of 1000 mm and a pressure of 8,4 MPa in the Łódzkie voivodeship.

Location of the project

The gas pipeline will mostly run along the existing high pressure gas pipeline in the territory of municipalities of Tworóg, Tarnowskie Góry, Miasteczko Łódzkie, Opatów, Mierzęcice, Siewierz, and Dąbrowa Górnicza.

Stage of the investment

The stage of developing project documentation has been completed.

GAZ-SYSTEM has begun the construction of the Tworóg - Tworze gas pipeline.

The contractor of construction works is a consortium of companies: PORR S.A. and Denys NV.

The investor's supervision over the construction of the gas pipeline is ECMG GmbH.

The contractor of design documentation and author's supervision over the construction of the Tworóg -Tworze pipeline is a Tractebel Engineering S.A.

The construction of the gas pipeline is planned to be completed in 2020.

Legal basis

The project is performed based on the provisions of the Act of 24 April 2009 on investment projects related to the liquefied natural gas re-gasification terminal in winouj cie (consolidated wording: Journal of Laws of 2017, item 2302, as amended). The gas pipeline has been included in the catalogue of projects accompanying the terminal-related projects, pursuant to the Act of 30 May 2014 amending the Act on investment projects related to the liquefied natural gas re-gasification terminal in winouj cie, and amending the Act on real estate management (Journal of Laws of 2014, item 906).

Benefits resulting from the project

The effect of the investment will be increasing the safety and reliability of natural gas transmission to the region, and on the national scale increasing the transmission capacity and the degree of diversification of natural gas sources. It will also constitute a crucial component of the [North-South Gas Corridor](#).

The property tax paid each year by GAZ-SYSTEM, equaling 2% of the value of the transmission infrastructure located within the territory of a given municipality, will be considerable benefit for the local communities in question. The taxes will benefit the local budgets on a regular basis, and can be earmarked to address the needs of local communities.

European Union subsidies

The construction of the gas pipeline is co-funded by the European Union under the 2014-2020 Infrastructure and Operational Programme Infrastructure and Environment of the European Regional Development Fund.

Project of Common Interest

In October 2013, the European Commission granted the status of the Project of Common Interest to the project. More information about the meaning of PCI status for the development of the gas transmission infrastructure is presented [here](#) and in the [brochure](#) on PCI projects. GAZ-SYSTEM S.A. carries out the Tworóg-Tworze project without prejudice to rights of all stakeholders. Please, submit your notes, comments and questions concerning the Tworóg- Tworze project, which is the Project of Common Interest, via this [form](#).

Environmental decision

On 31 October 2016 the Regional Environmental Protection Director in Katowice issued the environmental conditions decision for the undertaking consisting in the construction of a high-pressure gas pipeline, DN 1000, MOP 8,4 MPa, between Tworóg and Tworze, constituting an element of the Hermanowice - Strachocina - Pogórska Wola - Tworze - Tworóg - Odolanów gas pipeline, along with infrastructure required to operate the pipeline, on the territories of Podkarpackie, wi tokrzyskie, Małopolskie, lskie, Opolskie and Wielkopolskie voivodeships (decision reference number WOO .4231.2.2016.JB).

Location decision

On 9 June 2017 the lskie voivodeship Governor issued the decision number 3/2017 on determining the location for the project named: "High-pressure gas pipeline DN1000 MOP 8,4 MPa from Tworóg to Tworze, as part of the construction of the Hermanowice - Strachocina - Pogórska Wola - Tworze - Tworóg - Odolanów gas pipeline together with the infrastructure necessary for its service in the Podkarpackie, wi tokrzyskie, Małopolskie, lskie, Opolskie and Wielkopolskie voivodeships".

Building permits

On 20 December 2017 the lskie voivodeship Governor issued the decision number 112/17 on the construction permit for the investment named: "High pressure gas pipeline DN1000 MOP 8,4 MPa from Tworóg to Tworze, as part of construction of the Hermanowice - Strachocina - Pogórska Wola - Tworze -Tworóg - Odolanów gas pipeline, together with the infrastructure necessary for its service in the Podkarpackie, wi tokrzyskie, Małopolskie, lskie, Opolskie and Wielkopolskie voivodeships".
