

GAZ-SYSTEM S.A. and PJSC „UKRTRANSGAZ” increase transmission capacities in direction to Ukraine

Gas Transmission System Operator of Poland GAZ-SYSTEM S.A. (GAZ-SYSTEM S.A.) and Public Joint Stock Company “UKRTRANSGAZ” (PJSC „Ukrtransgaz”) are going to increase transmission capacities in direction to Ukraine since 1st September 2017.

TSOs agreed to offer the total interruptible capacity in Hermanowice in direction to Ukraine (ID 402402) at the following level:

- 2 825 000 kWh/h (250 000 Nm³/h) from 1st September to 30th April
- 1 887 100 kWh/h (167 000 Nm³/h) from 1st May to 31st August

On GAZ-SYSTEM S.A. side transmission service is provided on the interruptible conditionally firm basis (interruptible conditionally firm capacity).

On GAZ-SYSTEM S.A. side of the IP Hermanowice the capacity in direction to Ukraine (ID 402402) over 1 887 100 kWh/h (167 000 Nm³/h) will be made available as a monthly, daily and withinday products

GAZ-SYSTEM S.A. will publish the final offered capacity on Polish side of the IP of particular months on GSA Platform according to the auction calendar

The agreed available capacity, on GAZ-SYSTEM side, is made available via capacity booking platform GSA Platform according to the auction calendar published by ENSTOG and pursuant to the Capacity Allocation Network Code (COMMISSION REGULATION (EU) 2017/459 of 16 March 2017 establishing a network code on capacity allocation mechanisms in gas transmission systems and repealing Regulation (EU) No 984/2013 (Text with EEA relevance).

PJSC „Ukrtransgaz” i GAZ-SYSTEM S.A. are willing to pursue the goal of harmonization of capacity products and their allocation mechanism on both transmission systems sides.

Gas Transmission System Operator of Poland GAZ-SYSTEM S.A. (GAZ-SYSTEM S.A.) and Public Joint Stock Company “UKRTRANSGAZ” (PJSC „Ukrtransgaz”) are going to increase transmission capacities in direction to Ukraine since 1st September 2017.

GAZ-SYSTEM plays a strategic role in the Polish economy. We are responsible for natural gas transmission and operate the most important gas pipelines in Poland. As part of the 2015-2025 investment programme, GAZ-SYSTEM plans to build over 2000 km of new gas pipelines in western, southern and eastern parts of Poland. Further development of the national transmission network, including the construction of new gas pipelines making part of the North-South Gas Corridor, as well as the construction of interconnections with the neighbouring countries, will strengthen Poland's energy security and make an important contribution to the development of the European transmission system.

The Company is implementing one of the most important infrastructural projects in Poland – the Baltic Pipe project, which consists in the construction of a bidirectional offshore gas pipeline connecting Poland and Denmark and the expansion of the local transmission network.

GAZ-SYSTEM also owns Polskie LNG, the operator of the President Lech Kaczyński's LNG Terminal in winouj cie.
