Please be informed that, following the entry into force of the Commission Regulation (EU) of 16 March 2017 establishing a network code for harmonized gas tariffs (TAR NC) and in accordance with the Decision of the President of the Energy Regulatory Office DRG. DRG-2.7129.2.2017.JDo1 of 27 October 2017, GAZ-SYSTEM S.A. has been designated as the entity responsible for publication of the information referred to article 30 TAR NC. The Company fulfill the obligation by publishing required information package on page [TAR NC Publication](#).

Gas Transmission Operator GAZ-SYSTEM S.A. is a strategic company for the Polish economy, responsible for the transmission of natural gas and the management of the most important gas pipelines in Poland. GAZ-SYSTEM S.A. is also the owner of Polskie LNG S.A., a company established to build the winouj cie LNG terminal.

As part of its 2015-2025 investment scheme, GAZ-SYSTEM S.A. is planning to build over 2,000 km of new gas lines in western, southern and eastern Poland. Further expansion of the domestic transmission system, including construction of new gas pipelines being part of the North-South Gas Corridor, as well as construction of interconnections with Lithuania, Slovakia and the Czech Republic, will enhance Poland's energy security and contribute considerably to the development of the European transmission system.

In 2009-2015, GAZ-SYSTEM S.A. completed an investment plan consisting in the construction of over 1,200 km of new gas transmission lines in north-western and central Poland. The projects implemented by the company and the physical and virtual reversal on the Yamal pipeline have translated into a significant increase in technical import opportunities on routes other than from the East.
