## **Gas Transmission Operator GAZ-SYSTEM S.A. has launched a public tender for the provision of balancing services regarding gas supply at Branice entry point (ID 372414)**

Gas Transmission Operator GAZ-SYSTEM S.A. has launched a public tender for the provision of balancing services regarding gas supply at Branice entry point (ID 372414).

The subject of this procurement is the provision of balancing services (based on Art. 8 of Commission Regulation (EU) No 312/2014 of 26 March 2014 establishing a Network Code on Gas Balancing of Transmission Networks) at Branice entry point (ID 372414) over the period of time from 1 October 2018, 06:00 a.m. to 1 October 2019, 06:00 a.m.

The tender closing date and time expire on 31 July 2018 at 12:00 p.m.

The details of the procedure are available at the website:

<https://zakupy.gaz-system.pl/app/demand/notice/public/3485/details>

We kindly invite you to take part in the procedure.

*Gas Transmission Operator GAZ-SYSTEM S.A. is a strategic company for the Polish economy, responsible for the transmission of natural gas and the management of the most important gas pipelines in Poland. GAZ-SYSTEM S.A. is also the owner of Polskie LNG S.A., a company established to build the winouj cie LNG terminal.*

*As part of its 2015-2025 investment scheme, GAZ-SYSTEM S.A. is planning to build over 2,000 km of new gas lines in western, southern and eastern Poland. Further expansion of the domestic transmission system, including construction of new gas pipelines being part of the North-South Gas Corridor, as well as construction of interconnections with Lithuania, Slovakia and the Czech Republic, will enhance Poland's energy security and contribute considerably to the development of the European transmission system.*

*In 2009-2015, GAZ-SYSTEM S.A. completed an investment plan consisting in the construction of over 1,200 km of new gas transmission lines in north-western and central Poland. The projects implemented by the company and the physical and virtual reversal on the Yamal pipeline have translated into a significant increase in technical import opportunities on routes other than from the East.*
