Invitation to GAZ-SYSTEM Forum

We kindly invite all GAZ-SYSTEM Customers to participate in the next meeting organised as part of the GAZ-SYSTEM FORUM cycle intended to discuss current issues related to the functioning and development of the gas market, as well as using the services offered by GAZ-SYSTEM.

The meeting will be held on Monday 30th September at 12:00-6:00 pm in the Inter Continental hotel at Emilii Plater Street 49 in Warsaw.

The range of the workshop topics will include, among others:

- Transmission Network Code update,
- Outcome of the market consultation on planned changes in the functioning of interconnection points at the Polish-Ukrainian border,
- The use of the Gas Inside Information Platform for publishing inside information in line with REMIT,
- Market monitoring in line with REMIT,
- The most important events in the upcoming gas year 2019/2020.

During the meeting, simultaneous translation into English will be provided.

In order to declare your participation in the workshop, please register via the [form](#).

The participation in the workshop can be submitted until Friday 6th of September. Due to the limited number of seats, we kindly ask you to register up to two representatives of your organisation.

The confirmation of participation in the workshops will be sent by GAZ-SYSTEM until 10th of September via e-mail to the e-mail provided in the registration form.

GAZ-SYSTEM plays a strategic role in the Polish economy. We are responsible for natural gas transmission and operate the most important gas pipelines in Poland. As part of the 2015-2025 investment programme, GAZ-SYSTEM plans to build over 2000 km of new gas pipelines in western, southern and eastern parts of Poland. Further development of the national transmission network, including the construction of new gas pipelines making part of the North-South Gas Corridor, as well as the construction of interconnections with the neighbouring countries, will strengthen Poland's energy security and make an important contribution to the development of the European transmission system.

The Company is implementing one of the most important infrastructural projects in Poland – the Baltic Pipe project, which consists in the construction of a bidirectional offshore gas pipeline connecting Poland and Denmark and the expansion of the local transmission network.

GAZ-SYSTEM also owns Polskie LNG, the operator of the President Lech Kaczyński's LNG Terminal in winouj cie.
