

System map

We hereby inform that all data about the available transmission capacity presented on the visualisation maps showing available transmission capacity has been given for information only and it does not constitute an offer within the meaning of Article 66 and subsequent articles of the Civil Code.

In order to acquire rights to transmission capacity it is necessary to file an application for the provision of transmission services to the Gas Transmission Operator GAZ-SYSTEM S.A. The application form may be downloaded from our [website](#).

- available capacity of the measurement system at the entry/exit point, and
- available capacity of the network (gas pipelines)

[See the visualisation of capacity reserves on the map of the transmission system \(E-gas\)](#)

[See the visualisation of capacity reserves on the map of the transmission system \(L-gas\)](#)

[See the available 18-month capacity forecast \(E-gas\)](#)

[See the available 18-month capacity forecast \(L-gas\)](#)

[See the operating coverage of the Gas Transmission Operator GAZ-SYSTEM S.A. \(joint stock company\) \(Transmission System Map\)](#)

In order to display the map correctly and explore it, it is required to install Adobe Flash Player software, version 9.0.124 at least. The most recent version of the flash plug-in may be downloaded [here](#).
