

Data structure in an OD file for the DSO to provide information on daily quantities of gas off-taken by customers from the DSO's restrictions plan during the period of applicability of the restrictions

Pursuant to the Stockpiling Act and Part II of the TNC, during the period of applicability of the restrictions introduced by the Council of Ministers under the procedure of Article 56 of the Stockpiling Act, the DSO's provide information on the daily quantities of gas for the previous gas day for the individual customers covered by the restrictions plan prepared by the DSO, electronically in the format specified below, each day by 10 am.

1. File name:

OD_csnd_crcp_yyyy_mm_dd_v

where:

csnd – code of the Distribution System Operator (DSO)

crp – code of the Transmission System Operator (TSO): GSPL – GAZ-SYSTEM S.A.

yyyy – year to which the information provided pertains

mm – month to which the information provided pertains

dd – day to which the information provided pertains

v – file version number (from 1 to 9, and then subsequent letters of the alphabet without diacritical signs)

2. File content

Details in an ASCII text file in which particular lines pertain to particular customers from the restrictions plan to whom daily quantities of gas are transmitted, on a particular day (the day preceding the day on which the information is provided). Subsequent fields in the line are separated with semicolons (;)

plan_code;gas_type;point_code;item_no;yyyy;mm;dd;quantity;

where:

plan_code – ID of the restrictions plan consisting of 3 elements: DSO's code, year, number of the restrictions plan in the year, e.g. ABCD201301 – which denotes the first restrictions plan of the DSO with the code ABCD in 2013;

gas_type – type of gas off-taken by the customer at a particular point gas type codes: E, Ls, Lw

point_code – code of the gas off-take point consisting of 2 elements – DSO's code and four-digit number assigned by the DSO

item_no – number of the item in the restrictions plan (numeric format)

yyyy – year mm – month

dd – day to which the daily quantities of gas transmitted pertain

quantity – the daily quantity of gas off-taken by the customer on a particular gas day (kWh)
