

Bundled product Mallnow

Between 10-24 January 2014 Gas Transmission Operator GAZ-SYSTEM S.A. conducted the market consultations regarding the Terms and Conditions of the auction of a Bundled Capacity Product to be offered at the Mallnow Interconnection Point.

It was associated with ongoing works for the extension of the Mallnow metering station which was agreed between GAZ-SYSTEM S.A. and GASCADE Gastransport GmbH at the end of 2012. The planned completion of the expansion of the Mallnow station, and thus the ability to offer firm capacity is to take place from April 1, 2014.

The capacity will be offered as bundled and will be based on the provisions of the European Capacity Allocation Mechanisms Network Code (NC CAM), in accordance with Commission Regulation (EU) No 984/2013 of 14 October 2013 supplementing Regulation (EC) No 715/2009 of the European Parliament and of the Council (OJ EU No L 273/5) (the "NC CAM").

During the pilot auctions the bundled capacity at the Mallnow interconnection point will be offered for the following periods:

?Quarter April 2014 – June 2014: 2 917 792 kWh/h (282 677 m³/h in accordance with the GOST standard),

?Quarter July 2014 – September 2014: 2 917 792 kWh/h (282 677 m³/h in accordance with the GOST standard).

Launching the pilot auctions is scheduled at the 24 February 2014. Auction will be entirely carried out at the European Capacity Platform PRISMA Primary.

GAZ-SYSTEM S.A. publishes for the consultation the GAZ-SYSTEM's rules of the auction of Bundled Product at IP Mallnow.
