

Neutrality fee rate

As of 1 October 2015 a mechanism ensuring cost neutrality of the balancing measures of Gas Transmission Operator GAZ-SYSTEM which is consistent with the guidelines set out in the Commission Regulation (EU) No 312/2014 of 26 March 2014 establishing a Network Code on Gas Balancing of Transmission Networks has been implemented.

The cost neutrality of the balancing measures undertaken by GAZ-SYSTEM shall be achieved by the means of a neutrality charge.

The neutrality charge shall be calculated separately for each balancing area.

The value of the neutrality charge may be either:

- **positive (+)** – in such a case, a neutrality fee is paid by the Shippers in favor of GAZ-SYSTEM

or

- **negative (-)** – in such a case, a neutrality fee is paid by GAZ-SYSTEM in favor of the Shippers

A **monthly settlement system**, under which the neutrality fee rate will be fixed every month based on the results of balancing activities undertaken by the Operator in a given month of the current gas year, and the results will be settled in the following month.

Monthly rate 2017/2018/2019/2020/2021

Balancing area	Monetary Unit	Neutrality charge*	Period of application	Last data update
High-methane balancing area (E)	[PLN/MWh]	- 0,307899	From 1 September 2021 to 30 September 2021	25 October 2021 (15:00)
