

Odolanów Gas Compressor Station - development

The development of the Odolanów Gas Compressor Station is directly related to the implementation of the Baltic Pipe Project, under which new pipelines will be built and existing gas compressor stations will be developed. More information about the Baltic Pipe Project can be found at www.baltic-pipe.eu

Description of the Investment

- capacity of the gas compressor station after expansion – 30 MW, including: 30MW – 1st stage (implementation phase), 20 MW – 2nd stage (design phase)
- location: municipality of Odolanów, the Wielkopolska voivodeship

Party responsible for design documentation development

PGNiG GAZOPROJEKT S.A.

Investment schedule

- 1Q 2020 – obtaining a building permit decision
- 3Q 2022 – completion of the investment project

Benefits

The new Odolanów gas compressor station will be responsible for increasing the capacity of the transmission system by pumping increased volumes of gas from the Baltic Pipe offshore pipeline. It will enable increasing Poland's energy security and will constitute an important element of the North-South Corridor.

Taxes paid annually by GAZ-SYSTEM will be an important benefit for the municipality in which the pumping station will be expanded.

Legal basis

Project of Common Interest

In October 2013 and 2015, the European Commission granted the investment the "Project of Common Interest" status.

On 24 November 2017, the European Commission published the third European list of projects in the natural gas sector, including the Baltic Pipe Project, which underlines its regional importance.

For more information on the importance of the PCI status for the development of gas transmission infrastructure, please see [tab](#) and the brochure dedicated to PCI projects.

GAZ-SYSTEM S.A. implements the investment in the development of the gas compressor station in compliance with the rights of all stakeholders. We encourage you to comment and ask questions about the Odolanów Gas Compressor Station development project, which was granted the Project of Common Interest status, using the [form](#).

Issuance of the location decision

On 25 July 2019, the Voivode of Wielkopolska issued the decision determining the location of the investment accompanying the investments within the scope of the terminal consisting in extension of the Odolanów Gas Compressor Station.

Issuance of the construction permit

On 10 February 2020, the Voivode of Wielkopolska issued the construction permit for the Gas Compressor Station in Odolanów.

Construction Works Contractor:

Consortium composed of: ATREM S.A. (Leader), JT S.A., PJP MAKRUM S.A., PROJPRZEM Budownictwo Sp. z o.o.
