## Consultations concerning draft of the LNG Terminal Code (LNGTC)

In consideration of the fact that preparatory works for commercial commissioning of the LNG Terminal in *winouj cie* are nearing completion, **Polskie LNG S.A. hereby invites all parties concerned to participate in consultations of the Draft of the *winouj cie* LNG Terminal Code.**

The proposed draft of the code is determined by legislation, as well as the strive to offer the uncontracted capacity of the LNG Terminal in *winouj cie* to all interested market players.

All comments and suggestions submitted during the consultations will undergo a thorough analysis prior to publishing the final revision of the Code.

All the parties concerned are invited to review the draft of the LNG Terminal Code, and requested to submit their comments and suggestions by **9 May 2016** at the following e-mail address: [instrukcja@polskieng.pl](mailto:instrukcja@polskieng.pl) using the templates provided below:

*GAZ-SYSTEM is a strategic company for the Polish economy. It is responsible for the transmission of natural gas, manages the most important gas pipelines in Poland and owns the President Lech Kaczyński LNG Terminal in *winouj cie*.*

*As part of the 2015-2025 investment programme, GAZ-SYSTEM is constructing over 2000 km of new gas pipelines in the western, southern and eastern parts of Poland. Over a dozen new gas pipelines are under construction within the North-South Gas Corridor and the compressor station in *K dzierzyn Ko le*, as well as interconnections with Lithuania and Slovakia. Onshore gas pipelines are planned to connect the planned FSRU floating terminal in the Gulf of Gdansk with the national transmission system. The LNG Terminal in *winouj cie* is also being extended, as a result of which the regasification capacity of this facility will be increased by more than a half.*

*The company is also implementing one of the most important infrastructural projects in the country - the Baltic Pipe project which consists in the construction of a two-way offshore gas pipeline connecting Poland and Denmark, expansion of the local transmission network and three gas compressor stations.*
