

11.09.2020

Invitation to GAZ-SYSTEM FORUM online

We kindly invite all GAZ-SYSTEM Clients to take part in the workshops organised as part of GAZ-SYSTEM FORUM – this time, due to safety reasons, held in the form of a live stream session. During the event you will be able to ask questions to our speakers.

The meeting will be held on Wednesday, 30 September 2020, 10.00am – 03.00pm.

The topics discussed will include:

- summary of events of the 3rd and 4th quarter of the gas year 2019/2020,
- updated general terms of the transmission contract,
- updated version of the Transmission Network Code,
- capacity auctions,
- the GAZ-SYSTEM strategy assumptions in the light of gas industry development,
- the most important events of the coming gas year 2020/2021.

The meeting will be streamed live in Polish and in English.

In order to sign up for the event, please register using the [form](#).

The deadline for registration is Wednesday, 23 September 2020.

Confirmation of your participation in the workshops will be sent by GAZ-SYSTEM, together with the link to the live streaming, by 25 September 2020, to the e-mail address given in the registration form.

GAZ-SYSTEM plays a strategic role in the Polish economy. We are responsible for natural gas transmission and operate the most important gas pipelines in Poland. As part of the 2015-2025 investment programme, GAZ-SYSTEM plans to build over 2000 km of new gas pipelines in western, southern and eastern parts of Poland. Further development of the national transmission network, including the construction of new gas pipelines making part of the North-South Gas Corridor, as well as the construction of interconnections with the neighbouring countries, will strengthen Poland's energy security and make an important contribution to the development of the European transmission system.

The Company is implementing one of the most important infrastructural projects in Poland – the Baltic Pipe project, which consists in the construction of a bidirectional offshore gas pipeline connecting Poland and Denmark and the expansion of the local transmission network.

GAZ-SYSTEM also owns Polskie LNG, the operator of the President Lech Kaczyński's LNG Terminal in winouj cie.
